Avalanche Danger

With lots of new snow and strong winds over the past few days, there continues to be heavy snow load on lee facing slopes and the avalanche danger in the southern Madison and southern Gallatin Ranges, the Lionshead area near West Yellowstone, the mountains around Cooke City, and the Washburn Range, remains CONSIDERABLE on wind-loaded slopes steeper than 35 degrees. Wind-loaded slopes that are less than 35 degrees and all non-wind-loaded slopes have a MODERATE danger.
